

Quality Policy

The manufacturer and supplier of elastomeric components (O Rings, Gaskets, Metal Bondings, Seal Assemblies) for Aerospace Applications.

Committed to supply customers with products and components within agreed timescales, the company operates within a Quality Management System defined by AS9100 Rev. D – Requirements for Aviation, Space and Defence Organizations.

The structure to achieve this is underpinned by the following core fundamentals which drive Quality.

- Maintain applicable International standards as a minimum.
- Leadership
- Strategy
- People and Training
- Processes, Procedures and Systems
- Audit Results and Conformance

Mowtec Limited is committed to complying with the requirements of the International Standards and applicable regulatory requirements and to continually improve the Quality Management System.

All personnel understand the requirements of the Quality Policy and abide by the requirements outlined in the Quality Management System. Any changes made to the Quality Management System are communicated and understood via training sessions or departmental meetings.

A statement is defined within the Quality Management System to ensure that performance against the objectives set are measured and reviewed on an annual basis as a minimum.

Regular training and monitoring ensures that staff are competent to undertake and achieve these objectives.

This Quality Policy is reviewed in order to ensure its continuing suitability. This shall be carried out at the annual Management Review meeting as a minimum.
